- Well, I taught \_\_\_\_\_ how to play the sax when I was five! Nobody taught \_\_\_\_\_.
- I hope the girls can behave \_\_\_\_\_ for two minutes. At the moment, they fight whenever they see \_\_\_\_\_. If they saw \_\_\_\_\_ like that, they'd be embarrassed!
- She needs to enjoy \_\_\_\_\_ more.

### 2 Find the rule

a) Complete the grid with the correct **reflexive pronouns** and **'each other'**.

|     |               |              |                   |                                |
|-----|---------------|--------------|-------------------|--------------------------------|
|     | I             | taught       | _____ (1)         | HTML.                          |
| Did | you           | hurt         | _____ (2)         | when you fell?                 |
|     | Jay           | bought       | <u>himself</u>    | a new pair of dancing shoes.   |
| Is  | Olivia        | pushing      | _____ (3)         | too hard at the moment?        |
|     | My tablet     | turns        | <u>itself</u>     | off after a few minutes.       |
|     | We            | saw          | <u>ourselves</u>  | on TV last night!              |
| Can | you two       | behave       | <u>yourselves</u> | for five minutes, please?      |
|     | Luke and Dave | always enjoy | _____ (4)         | when they play computer games. |
|     | Luke and Dave | send         | _____ (5)         | messages every day.            |

b) Now complete the rule.

The singular forms of the reflexive pronouns end in \_\_\_\_\_ (1); the plural forms end in \_\_\_\_\_ (2).

A \_\_\_\_\_ (3) can show that somebody did something alone and / or without any help.

You use \_\_\_\_\_ (4) to talk about interaction between people.
