Part V: Reading Comprehension

Secondary school is an exciting new chapter for many students. It is a place where you can learn advanced subjects, meet diverse people, and develop important life skills. Unlike primary school, lower secondary school requires students to be more independent. You have different teachers for different subjects like Literature, Mathematics, Science, and History. This means you have to move between classrooms and manage your time effectively. Participating in extracurricular activities is also a big part of school life. Many schools offer various clubs such as the art club, sports team, and science club. Joining these clubs is a fantastic way to discover your hidden talents and make friends who share similar interests. Furthermore, homework and assignments become more challenging. Students are encouraged to use the school library and computer room to research information for their projects. Teachers are always there to guide you, but you need to take responsibility for your own studies. Overall, lower secondary school provides a wonderful environment for teenagers to grow both academically and socially. It prepares them well for the future challenges in high school.

25. Secondary school students stay in one classroom all day. _____
26. Joining school clubs can help students make new friends. _____
27. Homework in lower secondary school is easier than in primary school. _____
28. Students must take responsibility for their own studies. _____
