BEFORE A WILDFIRE: BE PREPARED!

Wildfires can spread quickly during the dry season, especially when the weather is hot and windy. They can damage homes, forests and wildlife, and affect the health of our community.

We must prepare before an emergency. Families have to keep an emergency kit with **drinking water, non-perishable food, a flashlight, a first-aid kit and important documents**. We must also know the **evacuation route** and the **meeting point**. It is important to save **emergency contact numbers**.

We mustn't enter danger zones or start fires near dry vegetation. We don't have to pack toys or unnecessary objects. Being prepared reduces risks and helps us stay safe.

1

Why can wildfires spread quickly?
