Vocabulary Worksheet

Small steps make a big change! ♥

Learn the words • Protect our planet ♥

Name: _____
Class: _____
Date: _____

Look at the pictures and read the words. Use them to complete the activities below.

- | | | |
|---------------------|----------------------------|-----------------------------|
| 1 renewable energy | 6 deforestation | 11 environmental problems |
| 2 natural resources | 7 greenhouse gas emissions | 12 polluting the atmosphere |
| 3 sustainable | 8 harm | 13 wind turbines |
| 4 solar panels | 9 global warming | 14 have an impact on |
| 5 recycling waste | 10 climate change | 15 power stations |

Nature needs us!

A Match the words with their definitions. (Write the correct number.)

- | | | |
|------------------------------|-------|--|
| 1. renewable energy | _____ | A. Energy from sources that can naturally be replaced. |
| 2. natural resources | _____ | B. Materials from nature that people use. |
| 3. sustainable | _____ | C. Able to continue without damaging the environment. |
| 4. solar panels | _____ | D. Devices that use sunlight to produce electricity. |
| 5. recycling waste | _____ | E. Processing used materials so they can be used again. |
| 6. deforestation | _____ | F. The cutting down of large areas of trees. |
| 7. greenhouse gas emissions | _____ | G. Gases released into the atmosphere that contribute to global warming. |
| 8. harm | _____ | H. Damage or injury to something or someone. |
| 9. global warming | _____ | I. The gradual increase in the Earth's temperature. |
| 10. climate change | _____ | J. Long-term changes in temperature and weather patterns. |
| 11. environmental problems | _____ | K. Problems that damage the natural environment. |
| 12. polluting the atmosphere | _____ | L. Making the air dirty or harmful. |
| 13. wind turbines | _____ | M. Machines that use wind to produce electricity. |
| 14. have an impact on | _____ | N. To affect something or someone. |
| 15. power stations | _____ | O. Places where electricity is produced. |

B Choose the best answer.

- What does "solar panels" mean?
☐ A. Machines that use wind to produce electricity.
☐ B. Devices that use sunlight to produce electricity.
☐ C. A type of natural resource.
☐ D. A kind of power station.
- Which word means "the cutting down of large areas of trees"?
☐ A. renewable energy ☐ B. deforestation
☐ C. recycling waste ☐ D. global warming
- What is the meaning of "sustainable"?
☐ A. Able to continue without damaging the environment.
☐ B. Causing harm to the environment.
☐ C. Producing a lot of waste.
☐ D. Using up natural resources.
- "Polluting the atmosphere" means ...
☐ A. Making the air clean and fresh.
☐ B. Making the air dirty or harmful.
☐ C. Producing renewable energy.
☐ D. Saving natural resources.
- Which word is the opposite of "harm"?
☐ A. damage ☐ B. protect ☐ C. hurt ☐ D. destroy

Choose a greener future!

C Fill in the blanks with the correct words.

Use the words from the box.

renewable energy natural resources sustainable
solar panels recycling waste deforestation
greenhouse gas emissions harm global warming
climate change environmental problems
polluting the atmosphere wind turbines have an impact on
power stations

- We should use _____ to protect the Earth.
- Trees give us clean air and other _____.
- _____ is the gradual increase in the Earth's temperature.
- _____ can lead to more extreme weather.
- We must stop _____ by using public transport.
- _____ means the cutting down of large areas of trees.
- My family sorts the rubbish and does _____.
- Wind turbines and _____ are examples of renewable energy.
- _____ can cause serious damage to wildlife.
- The new policy will _____ on the environment.

D Write the words for the pictures. Choose from the word bank.

Together for a cleaner planet! ♥
