/ 6

G Reading: Recognizing different word forms

Read the blog and write a one- or two-word answer. Use only words from the text.

Fantastic Finland

Finland is in the far north of Europe. The capital city, Helsinki, is in the south of Finland. Reykjavik in Iceland is the only capital city further north. Finland is a very cold country because of where it is. In fact, it's one of the coldest and it has long winters. It's a very beautiful country with lots of forests. Finns love to enjoy the beauty of their country.

Finland is next to Sweden and the Finns learn the Swedish language at school. Finnish is not easy to understand for Swedish people. That's because Finnish and Swedish don't come from the same family of languages. Most Finns also learn English at school, so people from other countries can easily talk with them.

Finns are friendly and they love to meet people. They like talking, but they also like silence. Finns can sit with their friends without talking a lot. They are also very happy people and enjoy their lives – the United Nations says they are the happiest people in the world!

Are they happy because they are healthy? Maybe. Finns eat healthily, with lots of fish in their diet. They also exercise and like to take long walks.

- 1 Finland is one of _____ countries in the world.
- 2 The forests make Finland a _____ country.
- 3 You can talk with Finns _____ in English.
- 4 People in Finland are _____ and enjoy meeting people.
- 5 Finns enjoy their lives and are _____ people.
- 6 Lots of fish in their diet means Finns eat _____.
