- a. a leaflet for tourists in Athens ☐
- b. a page from a school book about Ancient Greece ☐
- c. a story about the Greek gods ☐
- d. a Greek myth ☐

The Greek Mythology Tour

A four-hour walk in ancient Athens with special VR glasses.

The tour starts in the Temple of Zeus. Zeus was the king of the gods and this temple was the biggest in ancient Athens. It is now a ruin, but when you put on your VR glasses, you can see what it was like 2,000 years ago and listen to a story about Zeus.

On the walk from the temple to the most famous ruins in Greece – the Acropolis – use the VR glasses to imagine that you are walking in Athens 2,000 years ago. People around you are wearing ancient Greek costumes and you can listen to them – if you understand Ancient Greek!

Your first stop on the Acropolis is the Theatre of Dionysius. It's the oldest Greek theatre and 17,000 people can sit here.

Actors performed the first play in the theatre more than 2,600 years ago. Sit down on a stone seat, put on your VR glasses and watch a play about the god of wine.

Walk around the Acropolis and visit the Temple of Athena. With your VR glasses you can watch and listen to a famous Greek myth, the myth of Poseidon and Athena. The myth tells the story of a competition between them. Who do you think was the winner? Put on your VR glasses to find out.

The tour finishes in the Agora, the centre of daily life in Ancient Athens. Sit down and listen to Socrates and Aristotle when they walk past. You can see a big market in the Agora with lots of food – but it was there 2,000 years ago.

If you're hungry, there are many modern-day restaurants near the square where you can try some modern Greek food – without the VR glasses!

Enjoy your trip back in time!

2.2. Read again and complete the notes.

The Greek Mythology Tour

Places visited on the tour:

- City: a. _____ e. _____
- How long: b. _____ f. _____
- Transport: c. _____ g. _____
- Special: with d. _____ h. _____
