Skyfall

ACTION
COLUMBIA PICTURES, 2012

Skyfall is an exciting action film released in 2012. It was directed by Sam Mendes and produced by Columbia Pictures and MGM. Daniel Craig plays James Bond, a secret agent, and Javier Bardem plays Raoul Silva, the villain.

The story is about a former spy and computer hacker who wants revenge on the organization he worked for. James Bond must stop him. The film has lots of sensational action scenes in different cities around the world.

The acting is excellent, especially Javier Bardem's performance. The soundtrack is also fantastic and includes the famous song *Skyfall* by Adele. The special effects are impressive, too.

I really enjoyed *Skyfall* because it is exciting and full of surprises. I would definitely recommend it to people who love action movies. It is a great film!

Film Of The Week Review: Twilight

Twilight is a romantic fantasy film released in 2008. It was directed by Catherine Hardwicke and produced by Summit Entertainment. Kristen Stewart plays Bella Swan, and Robert Pattinson plays Edward Cullen, a mysterious vampire.

The story is about Bella, a teenager who moves to a small town to live with her father. At her new school, she meets Edward and falls in love with him. However, Edward has a dangerous secret: he is a vampire. Their relationship becomes complicated and sometimes dangerous.

The acting is disappointing. The main actors are not very convincing together. The film has some interesting scenes, but the story is often slow and boring. The special effects are not very impressive either.

I didn't really enjoy *Twilight* because I expected a more interesting and romantic story. However, teenagers who love romantic fantasy films might like it.

Edward Cullen (Pattinson) and Bella Swan (Stewart) enjoy prom night.
