

Name:.....Class:.....

Read the following and answer the questions below:

Bilal and Issa are the same age. But Bilal looks much older than Issa.

Issa

When we were younger, my brother was always trying new dishes and was very interested in international food. But he had a sedentary lifestyle, didn't do enough exercise and was eating too much. I asked him to go to the gym with me, but he was always too busy for physical activity.

Bilal

I still remember the first dinner he cooked for us: a salad, full of vitamins and minerals. I was mixing the salad when he said 'I love ... salads'! Oh yes he does! He loves sports and any food full of nutrients.

Bilal and Issa are the same age. But Bilal looks much older than Issa.

Choose True or False:
