

Best is yet to Come Ryan Stevenson

1- Listen to the song and complete with the missing words

I've been known to take some punches, I'm no stranger to the

Spent some time down in the shadows, still adjusting to the

I got some stories I could tell you, wear my feelings on my sleeve
Yeah, that's me

Like the edge of a knife, like the break of the
Like the part of the song when the chills come
On the edge of my seat, like a break in the clouds
Like the part of the movie when it goes
Some call it foolish
I call it faith

I can't see the future, I don't know what's up ahead
Can't see around the corner, I don't know what's coming

I don't have all the answers but I know it's not the end
All I know is this
The best is yet to

I've been rolling with the thunder, I'm no stranger to

The storm that tried to pull me under led me closer to the light
Got some scars that I could show you but I'm fighting to

Yeah, that's

Like the edge of a knife, like the break of the sun
Like the part of the song when the chills come
On the edge of my seat, like a break in the
Like the part of the movie when it goes down
Some call it foolish
I call it faith

I can't see the future, I don't know what's up ahead
Can't see around the corner, I don't know what's coming next
I don't have all the answers but I know it's not the end
All I know is this
The best is yet to come (x2)
'Cause I know You're not done
The best is yet, the best is yet to come

All I know is (I know You're not done)
(The best is yet to come)
All I know is (I know You're not done)
('Cause I know You're not done)
All I know is (I know You're not done)
The best is yet, the best is yet to come

I can't see the future, I don't know what's up ahead
Can't see around the corner, I don't know what's coming next
I don't have all the answers but I know it's not the end
All I know is this
The best is yet to come
