Daniel and the King's Dream Текст

Read the text.

King Nebuchadnezzar had a dream. It was a mystery. The king did not understand it. He called several wise men. Did they solve the mystery? No, they didn't. At first glance, the dream was strange. It was not a typical dream. The king's obsession was dreams. He gave an order: "Tell me the dream!"

The wise men did not have a magnifying glass or a cape. They did not look like detectives. But Daniel was intelligent and faithful to God. He had a neat appearance and extraordinary imagination. He used psychology and investigation. Did Daniel create a plan? Yes, he did. He prayed. God inspired him.

Daniel did not knit or listen to gossip. He solved the mystery. It was not fictional. It was a real Bible story. Did the king solve it? No, he didn't. Only Daniel could solve it. The dream was not underwater. It was about a big statue. The king was happy. Daniel was a hero!
