Components of a Sequence

Consider the following sequences

14, 20, 15, 21, 16, 22, 17

How many terms are in this sequence?

What is the third term?

Twenty Two is which term?

Is the difference constant?

14, 16, 18, 20, 22, 24

How many terms are in this sequence?

What is the fourth term?

Twenty Two is which term?

Is the difference constant?
