

Paul and Bea are pen friends. Bea lives in Ramsgate, England and Paul lives in Queenstown, South Africa. Bea and Paul are both 11 years old. Bea likes swimming and playing hockey and she loves going to the cinema. Paul also likes going to the cinema, but he doesn't like sports. His favourite subject is science and he loves doing experiments.

Bea studies in Dickens School and Paul studies in Nelson Boarding School. Bea's favourite subjects are PE and ICT, but she doesn't like science. Paul, instead, loves science and doesn't like PE.

Bea lives with her father, her mother and Fluffy, her cat. Her father is a nurse and her mother is a vet. Paul's family is smaller. He lives with her daddy and his dog, Lea. His father is a police officer.

Bea's town is big. In her town there are two cinemas, two sports centres and a museum, but there isn't a train station or a hospital. Her favourite place is the sports centre near her house. Paul's town is a bit smaller. In his town there are shops, a train station and a sports centre but there isn't a museum or a hospital. Her favourite place is the town library.
