PART IV. READING (0,5 pt. c/u)

Read the text carefully and choose the correct answer.

Two Interesting Television Channels

My name is Alex, and my two favorite television channels are Nat Geo and the History Channel. Both channels have programs about science, nature, history, and technology.

I think the programs on Nat Geo are sometimes more interesting because I love learning about animals and the natural world. However, the History Channel is just as educational as Nat Geo. My favorite program is How the Earth Was Made. It explains the history of our planet and teaches us about geology.

I also watch educational videos on YouTube. Some videos are more informative than television programs. In my opinion, learning about the world is exciting because we can discover new places and understand different cultures.

14. What topics do both television channels cover?

A. Fashion, music, and cooking
B. Science, nature, history, and technology
C. Sports, shopping, and travel only
D. Movies, cartoons, and comedy

15. Why does Alex sometimes prefer Nat Geo?

A. It has shorter programs.
B. It only teaches history.
C. It is more expensive.
D. He enjoys learning about animals and nature.

16. What is Alex's favorite program?

A. How the Earth Was Made
B. Amazing Animals
C. World History Today
D. Science for Everyone

17. According to Alex, educational YouTube videos can be…

A. less interesting than all television programs
B. only about entertainment
C. more informative than television programs
D. more expensive than television programs
