Thomas and the Lost Dog

Thomas Reed is eleven years old and lives in a quiet town near Cambridge. He usually walks home from school through a small park. One Tuesday afternoon he noticed a brown dog sitting alone near a bench.

The dog had a red collar but there was no name or telephone number on it. Thomas waited for several minutes because he thought the owner might be nearby. When nobody came, he gave the dog some water from his school bottle.

Thomas called his mother and told her about the dog. She asked him to take it to the local animal centre, but the centre was on the other side of town. Thomas's neighbour, Mr Evans, was driving past the park and offered to take them there.

At the centre a worker checked the dog and found a small electronic chip. It contained the owner's contact information. The dog's name was Bruno, and its family lived only two streets away from Thomas.

Bruno's owner arrived twenty minutes later. She explained that the dog had run away when someone left the garden gate open. She thanked Thomas and gave him a book about dogs. Next weekend Thomas is going to visit the animal centre and help the workers feed the animals.
