# ONLINE EDUCATION HUNT WORKSHEET (Web-based)

## WEB TASK – What are universities looking for?

*A. Find an education programmer*

Search for ONE university or education programmer you may be interested in.

University/Institution:

Programmer/Course:

Location:

Website link:

*B. Investigate the education programmer*

Find the following information and record your notes.

| Information | Your notes |
|---|---|
| Admission requirements | |
| Required qualifications | |
| Subjects or courses offered | |
| Entrance examination requirements | |
| Study duration | |
| Tuition fees | |
| Learning methods (online/offline) | |
| Other important information | |

*C. Connect the Web with today's vocabulary*

Choose at least THREE expressions from the lesson:

graduate from university
sit an exam
win a place at university
hand in coursework
share resources

LIVEWORKSHEETS

gain a qualification
log in to an online learning platform

Then write three sentences about the university or programmer:

1. _____
2. _____
3. _____

**WHAT NEXT – EDUCATION ADVISOR INTERVIEW**

*Student A – Education Advisor*

Ask your partner:

1. What university or programmer did you find?
2. Why are you interested in this programmer?
3. What qualifications are required?
4. Do you need to sit an entrance exam?
5. How can you win a place at this university?
6. What subjects would you like to study?
7. How can online learning platforms support your studies?
8. What should your educational priorities be?

*Student B – Prospective Student*

Use: Answer + Reason + Evidence from the website

For example:

The university requires students to have a high school certificate. I need to prepare carefully and sit the entrance exam to win a place at this university. I also need to improve my English before starting the programmer.

**WHAT NEXT – MY EDUCATION ACTION PLAN**

*Complete the following information:*

LIVEWORKSHEETS

My target university/programmer:

My current qualifications:

I need to improve:

My first educational priority is:

To prepare for the entrance exam, I will:

To achieve my educational goals, I will:

*Model mini-talk:*

I'd like to study English Language at university after graduating from high school. I need to meet the admission requirements and sit the entrance exam to win a place at my target university. I also need to improve my English skills and gain relevant qualifications. My first priority is to prepare carefully for the entrance exam. During my studies, I will hand in coursework on time, share resources with my classmates and use online learning platforms to improve my knowledge. I believe these activities will help me achieve my educational goals.
