Escuela Santa Ana

ENGLISH WORKSHEET UNIT 4: "FUTURE MATTERS"

DOCENTE	Carola Mosquera Ayala		
ASIGNATURA	Inglés		
FECHA	16.11.26	**CURSO**	8°A
NOMBRE ESTUDIANTE			
OBJETIVOS	Reconocer problemas medioambientales, elementos naturales y acciones de cuidado del planeta.		

Instrucciones:

- Lee bien cada encabezado para poder realizar la guía correctamente.
- Puedes usar tu cuaderno para ayudarte a desarrollarla.

I. The innovation board

Clasifica cada término según su función. Cada palabra se utiliza una sola vez.

WORD BANK robot assistant • rainwater tank • VR headset • problem-solving • solar panels • tablet • teamwork • hologram board • rooftop garden • creativity • recycling station • 3D printer

LEARNING TECHNOLOGY

(5 words)

_____
_____
_____
_____
_____

GREEN SOLUTIONS

(4 words)

_____
_____
_____
_____

TEAM SKILLS

(3 words)

_____
_____
_____

II. School rescue missions

Elige la herramienta o solución más útil para cada situación. Escribe su letra al lado de la misión.

A. 3D printer

B. solar panels

C. recycling station

D. VR headset

E. robot assistant

1. _____ A group needs to produce a small model of a wheelchair-accessible playground.
2. _____ The school wants to collect paper, cans and plastic separately.
3. _____ A class wants to explore the Amazon rainforest without travelling.
4. _____ The school plans to generate clean electricity from sunlight.
5. _____ Teachers need support organizing books and laboratory equipment.

III. Read the school blog

Lee la publicación y desarrolla las actividades sobre ideas principales y detalles.

BAHÍA VERDE SCHOOL — STUDENT BLOG

Hi! I'm Martina, a member of our school design team. We want a modern campus that also protects nature. Next Wednesday, we are going to install a small rainwater tank beside the greenhouse. On the following Friday, we are going to display a model of an accessible playground made with a 3D printer. We aren't going to buy new tablets this year because the technology club can repair our old ones.

Our science teacher believes that schools will offer more virtual museum visits in the future, but students won't stop enjoying outdoor activities. She also thinks robot assistants will organize materials; they won't make important decisions for children. At the end of the month, we are going to open a community recycling station. For our team, the best school is not the one with the most machines. It is the one where everybody participates and uses technology responsibly.

A. CHOOSE THE BEST ANSWER Marca una alternativa para cada pregunta.

1. Why is the team keeping its old tablets?

☐ a) They are not useful. ☐ b) They can be repaired. ☐ c) They are new.

2. What will robot assistants do in the teacher's opinion?

☐ a) Organize materials. ☐ b) Decide school rules. ☐ c) Replace every student.

3. Which idea best describes the blog?

☐ a) Technology is the only priority. ☐ b) Outdoor activities will disappear. ☐ c) Smart schools need people and responsibility.

4. Which project will happen at the end of the month?

☐ a) A recycling station. ☐ b) A robot contest. ☐ c) A new sports stadium.

B. PUT THESE EVENTS IN ORDER (1–3).

		
_____ Open a recycling station	_____ Install a rainwater tank	_____ Display a playground model

IV. Plan or prediction?

Lee cada afirmación y marca P (plan confirmado) o F (predicción sobre el futuro).

1. We have the materials ready. We are going to build a rooftop garden this weekend.	☐ P ☐ F
2. I think hologram boards will become cheaper in the next twenty years.	☐ P ☐ F
3. The students have reserved the science room; they are going to test a new robot tomorrow.	☐ P ☐ F
4. I believe future schools won't waste as much energy as schools do today.	☐ P ☐ F

V. The eco-tech week planner

Observa el calendario de actividades y escribe oraciones sobre planes futuros con be going to.

DAY	SCHOOL ACTIVITY	ECO-TECH VISUAL
MONDAY	The Green Club: test the solar panels	
TUESDAY	Lía and Ben: design a community garden	
WEDNESDAY	The Technology Club: create a 3D model	
THURSDAY	Class 8A: present ideas on a hologram board	
FRIDAY	All volunteers: clean the rooftop garden	
SATURDAY	No club meetings	

MODEL The Green Club is going to test the solar panels on Monday.

WRITE FULL SENTENCES. Sigue el modelo.

1. Lía and Ben / Tuesday:

2. The Technology Club / Wednesday:

3. Class 8A / Thursday:

4. The clubs / Saturday (negative sentence):

ASK ABOUT A PLAN. Write a question with be going to about the activity on Friday.

VI. Reply to the future chat

Responde cada mensaje en inglés. Utiliza las estructuras solicitadas y aporta ideas propias.

MATEO Our school has a lot of plastic waste. What are you going to do about it?

REPLY 1 · Use be going to.

MATEO How do you think students will learn in 2060?

REPLY 2 · Use will.

MATEO Will computers replace teamwork completely? Why or why not?

REPLY 3 · Use won't and give a reason.
