LINK 4

First off is my favorite, (1)…….. of Saint George Road. If you have not visited it yet, I encourage you to go (2)…….. It is absolutely spectacular -- there is even a flight simulator you can try out!

Just (3)…….It's a site not to be missed as well, with each floor devoted to a different era in our nation's history. There are special exhibits for children with (4)……, too.

If you're looking for parking, it is (5)…… of Queen Street and South King Street in the Car Park. Standard hourly and daily rates do apply.

(6)……, though it gets extremely busy during peak times. You can get there from the tube, or (7)…… on Timber Road, just south of Cornwell Road.

This area has students everywhere, usually from the (8)…… from the Shopping Mall. Classes often take (9)…… and engage in guided tours through the area.

So that's the overview of the main sites and hopefully by now I've given you a general idea of the area.
