Four phrases/sentences have been removed from the text below. Choose the correct option (A, B, C or D) that best fits each of the numbered blanks. (1 pt)

The Turquoise Waters of Moraine Lake

*Cradled in the Valley of the Ten Peaks in the Canadian Rockies, Moraine Lake is one of North America's most photographed alpine wonders. During early summer, melting glaciers high on the surrounding mountains feed icy water into the lake basin. **(21)** _____. When sunlight hits these tiny suspended stone particles, the water reflects a brilliant shade of turquoise blue. Surrounded by ten sharp snow-covered peaks and fragrant pine forests, the lake attracts hikers and canoeists from around the world. **(22)** _____. Because heavy traffic once congested the narrow mountain road, park authorities now ban private cars from driving directly to the lakeshore. Tourists must book seats on seasonal park shuttle buses to **(23)** _____. This smart policy has significantly reduced noise and air pollution in the valley. **(24)** _____.*

Options:

A. Visitors can paddle wooden canoes across the calm surface or hike along rocky trails
B. Grizzly bears and mountain goats can now roam their alpine habitat in peace
C. The glacial meltwater carries fine rock dust known as glacial flour into the lake
D. reach the scenic viewpoint safely during the busy summer months

21. ..... **22.** ..... **23.** ..... **24.** .....

Read the following passage and choose the correct answer (A, B, C or D) for each question. (1 pt)

Caño Cristales: The River of Five Colours

Flowing through the remote Serranía de la Macarena mountain range in Colombia, Caño Cristales looks like an ordinary clear river for most of the year. Its riverbed is lined with ancient grey quartzite rocks and carved with circular potholes formed by swirling pebbles. However, between July and November, this quiet waterway transforms into a breathtaking natural wonder often called the 'River of Five Colours.'

This spectacular transformation is caused by an endemic aquatic plant named Macarenia clavigera, which clings tightly to the submerged rocks. During the transition between the wet and dry seasons, the water level drops just enough for warm sunlight to reach the riverbed. In response, the underwater plants turn brilliant shades of crimson red, magenta, and pink.

LIVEWORKSHEETS

Combined with yellow sandbanks, green moss, dark shadowed rocks, and bright blue water, the river glows like a liquid rainbow.
Because the aquatic plants are extremely delicate, Colombian environmental authorities enforce strict conservation rules. Swimming is forbidden in areas where the red plants grow, and visitors are banned from wearing sunscreen or insect repellent that could pollute the water. Recently, botanists asked park rangers whether irregular rainfall caused by climate change was affecting the river's blooming season. Rangers confirmed that protecting the surrounding rainforest is essential to keep the river's water flow stable.

25. What causes Caño Cristales to turn bright red and pink between July and November?

A. Millions of red crabs migrate along the sandy riverbed.

B. Red volcanic lava flows into the river from nearby peaks.

C. Local villagers dye the water for an annual festival.

D. An underwater plant changes colour in warm sunlight.

26. The word "Its" in paragraph 1 refers to _____.

A. Caño Cristales B. grey quartzite C. liquid rainbow D. South America

27. Why are visitors forbidden from wearing sunscreen or insect repellent in the river?

A. The smell of lotion attracts dangerous wild animals.

B. These products turn the yellow sandbanks black.

C. Chemicals in these products could pollute the water.

D. Sunscreen makes the riverside rocks too slippery.

28. Which of the following is NOT true according to the passage?

A. Protecting the rainforest helps keep the river stable.

B. The river glows with five colours all twelve months.

C. Circular potholes in the riverbed are carved by pebbles.

D. Sunlight helps the submerged plants turn bright red.

Use the correct form of the word given in each sentence. (1 pt)

29. The famous Spanish ..... led an expedition across the dense rainforest in 1541. (EXPLORE)

30. Travellers should wear ..... sunglasses and hats when hiking across the desert. (PROTECT)
