5. "Will you take these measures to improve the situation?" they asked.
   A. if we will take B. whether we would take
   C. if we would take D. whether we will take

D Reading

1 Read the passage and choose the correct answer to each of the questions.

At 2,535 miles (7,126 kilometres), the Missouri River is nearly as long as the Mississippi River, into which it flows. Together the Missouri and the Mississippi form one of the world's largest river systems.

There are often major changes and disasters of similar kinds on the Missouri. The dams save water from the river to produce electricity. They also create reservoirs, or artificial lakes, behind them. The reservoirs store water that is needed for cities and for irrigation of crops. Irrigation is important because most of the regions around the river have a long dry climate.

In addition to producing electricity, the dams on the Missouri are also used to control the water level of the river. Sometimes when the level leads to an urgent flood, it is often lower, while at times it keeps the water level high enough for barges to float downstream.

1. On the Missouri River, there are dozens of _____.
   A. major dams B. small canals
   C. reserovirs D. crops
2. Why is it necessary sometimes to keep the water level high?
   A. To produce electricity. B. To prevent floods.
   C. To let barges float downstream. D. To change the flow of water.
3. The word "**They**" in the last paragraph refers to _____.
   A. dams B. parts of the river
   C. such changes D. some species
4. Which of the following is true, according to the passage?
   A. The Missouri River is longer than the Mississippi River.
   B. The Missouri River flows into the Mississippi River.
   C. The Mississippi River flows into the Missouri River.
   D. Wildlife species in the Missouri region are dangerous.
5. What is probably the best title for the passage?
   A. Producing Electricity B. Mississippi River
   C. Dams on the Mississippi D. Missouri River
