WARM UP

Do you know these devices? Tick (✓) the electronic device you have in your home.

Why should we have the Internet connection at home?

GCFLearningFee.org gives some benefits of having an Internet connection at home as it is easy for you to access to e-mails, news, shopping, TV shows and much more. It is claimed that once you get the connection, you can create a wireless home network (Wi-Fi). So you and your whole family can connect multiple devices such as computers, smartphones, tablets, TVs and more from anywhere in the house. You can purchase home Internet access that let you send and receive e-mail, browse the web or stream videos in just one click.

There is also a recommendation to secure your network with a password-It prevents other people who try to connect to the network without your permission.
