

Multiply the Pokeball

Problem 1:

$$\begin{array}{r} \text{3} \text{8} \text{7} \text{6} \\ \times \text{4} \\ \hline \end{array}$$

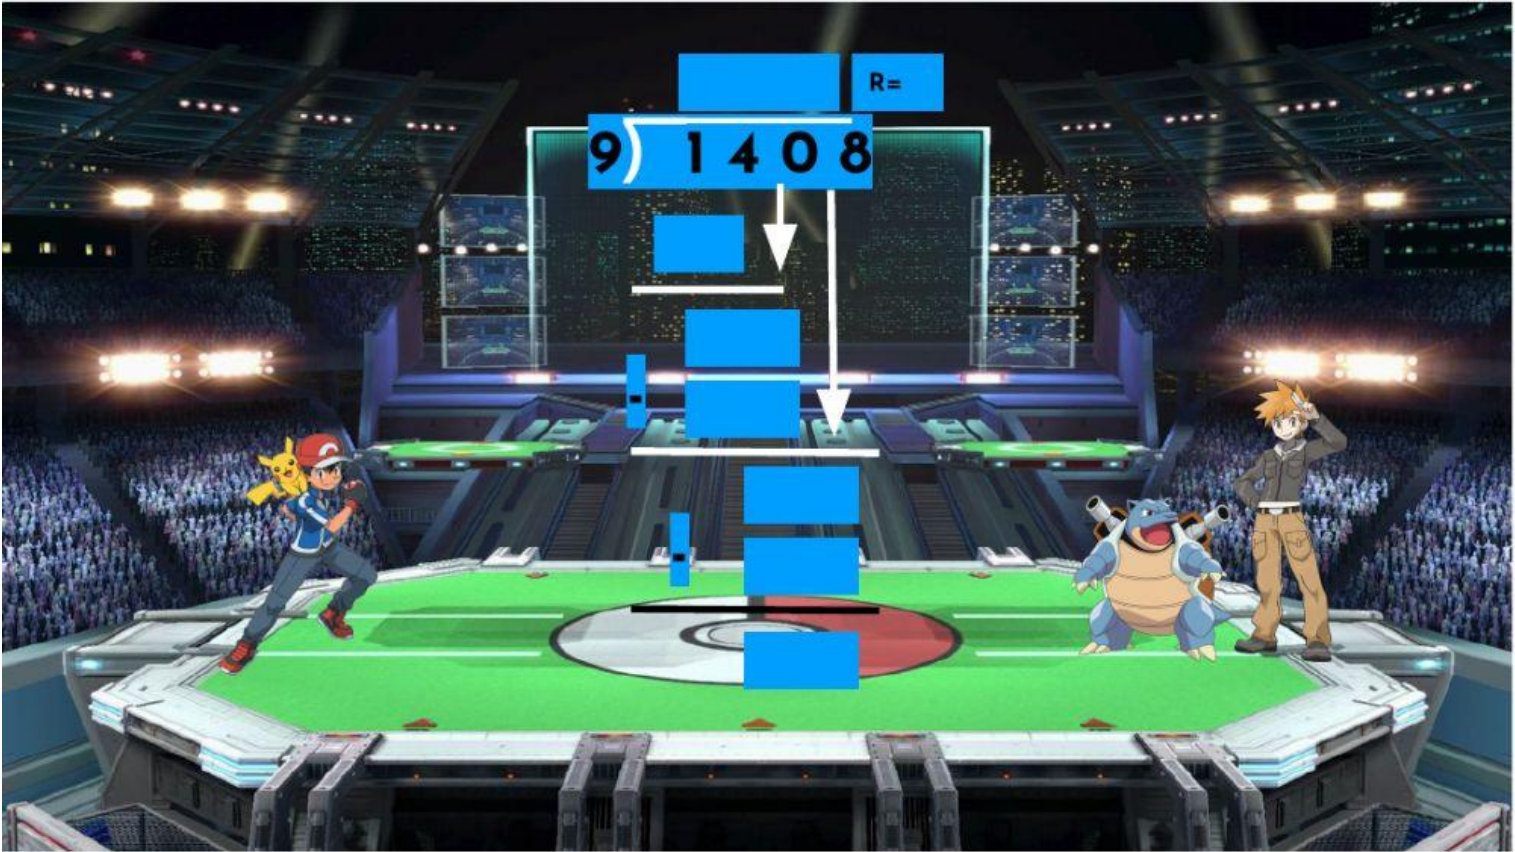

Problem 2:

$$\begin{array}{r} \text{2} \text{6} \\ \times \text{3} \\ \hline \end{array}$$

Pikachu and Charmander are multiplying, help them get the correct answer.

Ash wants to win, help him by DIVIDING.

Let's win this tournament by using DIVISION.
