Read the text and choose the correct answer (A, B or C).

How the Fire Station Helps Our Community

Every community in the United Arab Emirates has a fire station. It is where firefighters work.

Firefighters help keep us safe from dangerous fires. When there is a fire, they quickly drive the fire truck to help people.

The fire station also has tools to help the firefighter. Ladders help save people from tall buildings. Hoses help to put out fires.

The fire station and the people who work there are important to our communities.

Read the text and choose the correct answer (A, B or C).
