MAX SCIENCE 3

Homework – Week 14

Unit 1.6: What Animals Need to Stay Alive

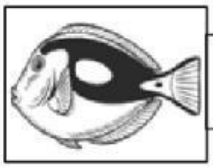

Ranking

Student's name: _____ **Class:** _____ **Date:** _____

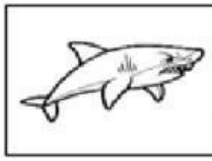

I. Read and write.

1. **water** water
2. **warmth** _____
3. **food** _____
4. **shelter** _____
5. **habitat** _____
6. **stay alive** _____

II. Look at each animal and choose what it eats.

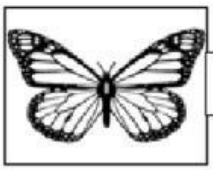

surgeon fish

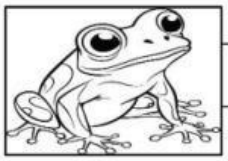

shark

whale

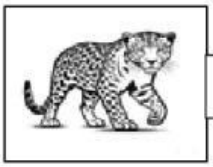

butterfly

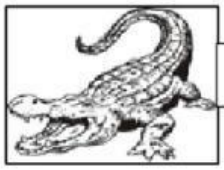

frog

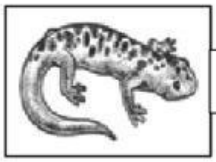

peregrine falcon

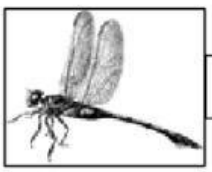

jaguar

crocodile

salamander

dragonfly

pigeon

squirrel

LIVEWORKSHEETS

III. Look at each animal and write its habitat.

water (river, lake, pond, sea, ocean)	sea ice	rainforest
grassland	desert	

Example:  water

1. 
2. 
3. 
4. 
5. 
6. 
7. 

IV. Read and write *TRUE* or *FALSE*.

Example: **TRUE** Animals need shelter to survive.

_____ 1. Polar bears and penguins live in the same habitat.

_____ 2. Snakes use their humps to survive in the desert where there is too little water.

_____ 3. Bears use their strong arms and tails to swing from tree to tree in the rainforest.
