Exercise 3. Read the passage and choose the correct answer A, B, C or D.

TECHNOLOGY AND EDUCATION

Technology has become an essential part of modern education. In the past, students mainly depended on textbooks and teachers to gain knowledge. However, the development of the Internet and electronic devices has (1) _____ changed the way people learn.

Nowadays, students can use laptops, tablets and smartphones to access a huge amount of information. These devices (2) _____ learners to study whenever and wherever they want. In addition, educational apps provide interactive activities, vocabulary games and online exercises, making learning more (3) _____ and enjoyable.

Another important advantage of technology is that it helps students (4) _____ with teachers and classmates more easily. They can exchange ideas, work on group projects and discuss difficult topics through online platforms. Furthermore, students can take (5) _____ of various online courses to develop their knowledge and skills.

Despite these benefits, technology also has some disadvantages. Some students spend too much time playing computer games or using social media instead of studying. This can negatively affect their academic performance. Therefore, students should learn to use modern devices (6) _____ and avoid becoming dependent on them.

In conclusion, technology plays an important role in education. If students use it wisely, it can become a powerful tool for improving their learning experiences.
