My favourite place is a restaurant called Spice. I live in a small village but my family and I often travel into the city centre to go shopping and we always eat at Spice when we're there. It's a small place and you can buy big plates of noodles and vegetables there. They don't cook any meat or fish, but that's OK. I like vegetables and I love watching the robots. That's right, robots! They're the really good thing about Spice. People don't make your food – robots do! They cook the food and put it on plates for you!
