

Finding Slope From A Graph

Slope:

$$m = \frac{\text{RISE}}{\text{RUN}}$$

Positive

Negative

Zero

Undefined

STEPS:

1. Determine if the _____ is positive or negative
2. Choose two _____ on the graph
3. Count how many spaces you go up or down (_____)
4. Count how many spaces you go right (_____)
5. Substitute in the found values: $m = \frac{\text{RISE}}{\text{RUN}}$
6. Simplify fraction (if necessary)
