### **Healthy Food**

The doctor says that we must eat healthy food. If we don't, we can easily ill or weak.

What is healthy food? Well, a healthy food must be clean. It must not have bad bacteria in it. It must contain protein, carbohydrate, vitamins or minerals. In short, it must be nutrition.

Fruits and vegetables are healthy food. They contain a lot of vitamins. We must eat them everyday. But we must also eat meat, eggs, and rice. They give us a lot of protein and carbohydrate.
