

Κάνω τις πράξεις με τη βοήθεια της αριθμογραμμής.

α) $12.840 + 573 = \dots\dots\dots$

β) $13.070 + 1.782 = \dots\dots\dots$

γ) $14.810 + 3.832 = \dots\dots\dots$

Υπολογίζω με τον νου και γράφω μόνο το αποτέλεσμα.

α) $12.120 + 70 = \boxed{}$

β) $13.420 + 130 = \boxed{}$

γ) $13.050 + 680 = \boxed{}$

δ) $15.480 + 270 = \boxed{}$

ε) $17.580 - 90 = \boxed{}$

στ) $16.250 - 370 = \boxed{}$

ζ) $13.510 - 850 = \boxed{}$

η) $14.730 - 670 = \boxed{}$

Συμπληρώνω τα κενά.

α) $12.000 = 11.400 + \boxed{}$

β) $12.000 = 3 \times \boxed{}$

γ) $12.000 = 17.000 - \boxed{}$

δ) $12.000 = 6.000 \times \boxed{}$

ε) $16.860 = 18.000 - \boxed{}$

στ) $16.860 = 14.100 + \boxed{}$

ζ) $16.860 = 2 \times \boxed{}$

η) $16.860 = 17.100 - \boxed{}$
