

Your First Day in Scratch

Answer the following questions to check your understanding. Choose the letter that best describes the answer.

1. I want my sprite to move backwards. How would I change this block to make my sprite move backwards?

2. I want to run each of these scripts. What is the difference between them?

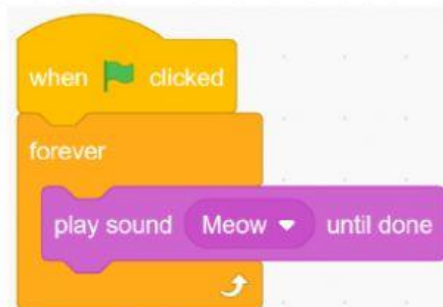

Script 1

Script 2

3. How can you add a move block into the scripts editor?
4. What do I have to do to make the sound stop playing?

-
- The image shows two Scratch code blocks. The first block is a 'when clicked' event block followed by a 'forever' loop containing three actions: 'move 20 steps', 'wait 1 seconds', and 'move -20 steps'. The second block is a 'when space key pressed' event block followed by a 'forever' loop containing one action: 'play sound Meow until done'.

- _____ Click the Move block.
- _____ Choose the Motion tab.
- _____ Make sure the sprite is chosen before programming.
- _____ Drag the Move block into the editor.
