WESTMINSTER ABBEY

King Edward restored a monastery where monks lived. Almost two hundred years later, another King (Henry III) decided to rebuild the entire church into a Gothic style. And in 1550 the church became a cathedral.

Since the coronation of William the Conqueror, all coronations of English and British monarchs and royal weddings have occurred in Westminster Abbey. More than 3300 people are buried in the abbey. Very important people as kings, poets, scientist such as Isaac Newton, Charles Darwin or Stephen Hawking have their tombs there.

ST PAUL'S CATHEDRAL

The previous church was destroyed in the 'Great Fire of London', so it was rebuilt after that.

The dome is one of the largest in the world. In the dome, 'The Whispering Gallery' transmits the quietest sounds to the opposite side. So you can speak quietly with a friend who is 30 metres away.

Many important people are buried there. Alexander Fleming (who discovered penicillin) is under the cathedral.
