The materials for the round house cost less than £ 10

Listening 3 **Paper 4, Part 4**

exam tip

When answering Yes/No questions:

- The opinions you hear are unlikely to be expressed in exactly the same words as the questions, but you should choose **Y** (Yes) if the meaning is the same.
- Read the instructions carefully to check if you are being asked to listen for opinions expressed by **any** of the speakers or only **one** of the speakers.

a  You will hear a radio programme discussing some new research into the environmental effects of cycling compared to driving. For questions **1–7**, write **Y** (Yes) next to opinions which are expressed by any of the speakers and **N** (No) next to opinions which are not expressed at all.

1 The findings of the research are unexpected.

 1

2 In some circumstances, driving is more environment-friendly than cycling.

 2

3 The research was biased.

 3

4 The findings are inaccurate.

 4

5 Breathing problems are made worse by car fumes.

 5

6 People shouldn't use cars for short journeys.

 6

7 Car sharing is not popular at present.

 7

Listening 2 **Paper 4, Part 2**

- a  You will hear a radio programme about reintroducing native species to areas from which they have disappeared. For questions **1–10**, fill in the answers.

Who want to reintroduce native species?

What is the main animal they want to reintroduce?

Why were wolves eradicated from the Scottish Highlands?

When did antelopes live in Britain?

Which two species mentioned are not native to Britain?

and

What would be the ideal period to recreate in Britain in terms of animal life?

Which two animals from that period will not be reintroduced now?

and

What would be a suitable habitat for beavers if they were reintroduced?
