Part 4

You will hear part of a radio programme in which the mother of a young tennis champion, Declan Murphy, talks about nutrition. For questions **24–30**, decide which of the statements are **TRUE** and which are **FALSE**. Write **T** for **TRUE** or **F** for **FALSE** in the box provided.

- 24** Mrs Murphy has been invited to speak on the programme because she's an expert on nutrition. 24
- 25** She believes that bad eating habits start from birth. 25
- 26** She thinks that grandparents often harm children without intending to. 26
- 27** As a child, her son was allowed a limited quantity of sugar. 27
- 28** Mrs Murphy believes that vitamins make children grow taller. 28
- 29** When Declan was a child, all his food intake was controlled by his mother. 29
- 30** Declan has now changed his eating habits. 30

Part 1

You will hear people talking in eight different situations. For questions **1–8**, choose the best answer, **A**, **B** or **C**. You will hear each short passage twice.

- 1** Listen to two people talking over a meal. Why doesn't the woman want bread?
A She's trying to lose weight.
B She doesn't eat it with the food that they're having. 1
C She's allergic to it.
- 2** You overhear a doctor talking to a woman in the emergency ward. What is the matter with her child?
A He has broken a bone.
B He has hit his head. 2
C He has food poisoning.
- 3** You hear a man and woman discussing the man's visit to an acupuncturist. Why did he go?
A for a general check-up
B to learn to relax 3
C to help him stop smoking
- 4** You hear a doctor talking on the radio. What is she describing?
A how to improve your digestion
B the best method of taking pills
C how different drinks affect your calorie intake 4
