(ANSWER THE QUESTIONS 1, 2 & 3 ACCORDING TO THE TEXT.)

Imagine that there will be no food in the future. How interesting, isn't it? I guess food pills will become more widespread in the future. We won't have breakfast, lunch or dinner. We won't cook delicious meals. I predict, there will be a pill for each food. For example, if you want to eat cheese, you'll take a cheese pill. If you want to eat a tomato, you'll take a tomato pill. People won't spend their time by preparing or eating food. These food pills won't be expensive so people can buy them easily. This won't be tomorrow, but it will come true one day.
