

How films are made?

- 1) Read the text, put the pictures in the correct order and caption them.

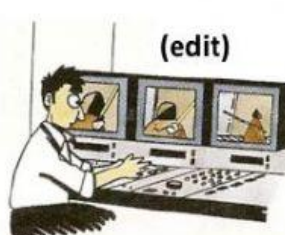

PREPRODUCTION AND PRODUCTION

First of all, a screenplay is written. Then, the locations are found, and the actors are chosen. After that, the sets are built and the costumes are made. All this is called preproduction. Finally, the film is shot. This is called production.

- 2) Write sentences using the verbs in brackets.

POSTPRODUCTION

(interview)

- 3) Look at this movie technical credit page and write passive voice sentences using the following verbs: to compose, to design, to direct, to edit, to make, to play, to produce, to release, to write
