

FRACCIONES SOBRE LA RECTA

Podemos representar fracciones sobre la recta numérica.

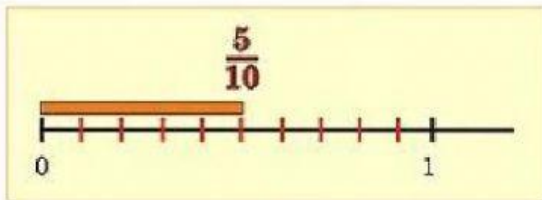

$\frac{3}{4}$ partes de la figura están sombreadas.

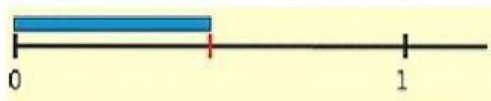

$\frac{3}{4}$ partes de la unidad de la recta numérica están sombreadas.

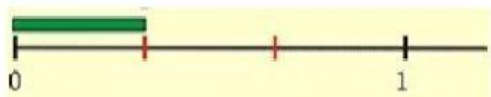

Observa y escribe la fracción que se representa:

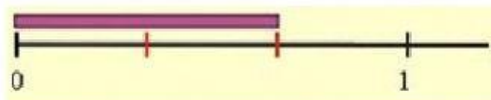

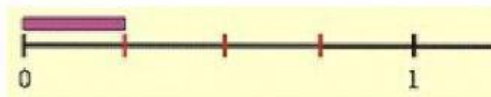

1º Cuento en cuantas partes está dividido y lo coloco de denominador.

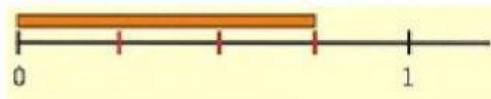

2º Cuento hasta donde llega la barrita marrón y la coloco en el numerador.

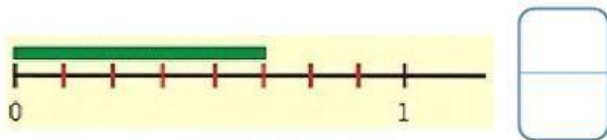

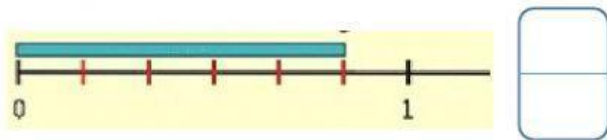

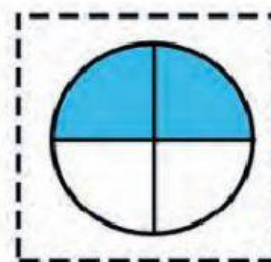

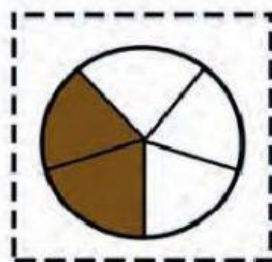

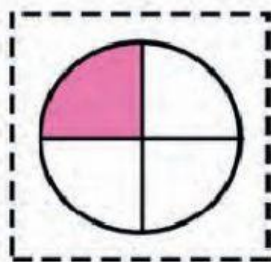

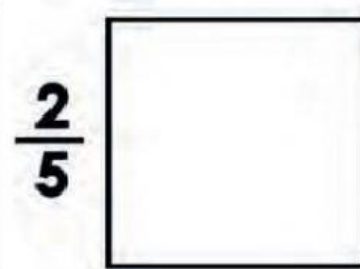

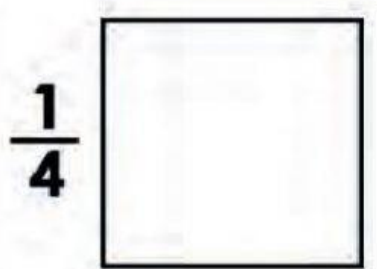

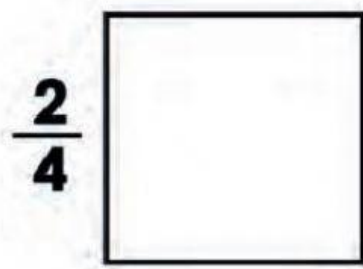

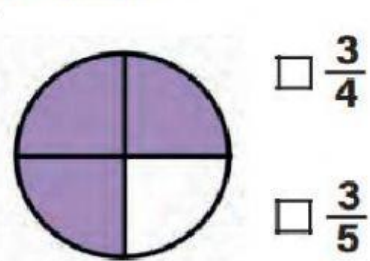

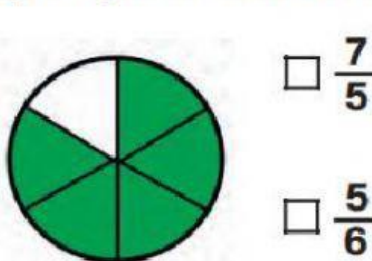

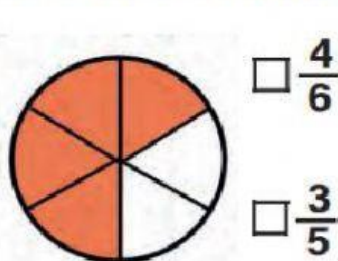

Arrastra la representación de las fracciones y pégalas donde corresponde.

Selecciona la fracción que representa el área sombreada.

Escribe la fracción que representa el área sombreada.
