

Read then choose the correct answer

1- Where do koalas live?

- A. Africa
- B. Australia

2- When do koalas eat?

- A. at night
- B. during the day
- C. in the morning
- D. in the afternoon

My favourite animal

Koalas live in forests in Australia. They are small and they look like bears.

Koalas eat leaves from eucalyptus trees. They can eat 500 grams of leaves every day! They don't drink much water, because they get water from the leaves they eat.

Koalas live, eat and sleep in trees.

They sleep during the day and eat at night. They are very good at swimming too.

I like them because they are small and very cute!
