

READING COMPREHENSION

My name is John and I like playing video games with my friends. I don't like studying History very much and I hate Maths lessons! Anyway, I like going to the Gym, but I don't like cooking because the food is not good at all, I'm not an expert person.

My mother Susan likes listening to music and likes taking Portuguese lessons, but she doesn't like taking French lessons because she doesn't like how to pronounce words very well, neither she doesn't like playing football, it's not her favorite sport.
