

# ≡ MY GROCERY LIST ≡

## 1. Read the following grocery list and identify the items that I'm going to buy.

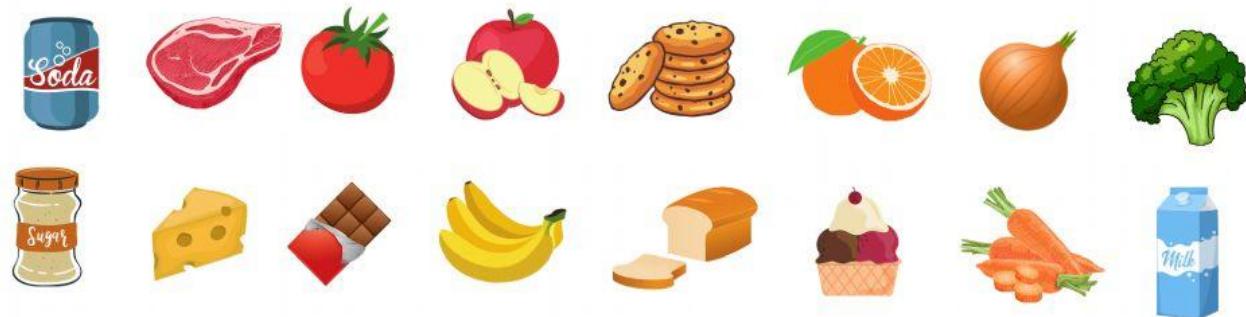

Today I noticed that my fridge is empty, so I am going to Walmart to buy my groceries later. I made a list of the things I want to buy, I need an apple, some bananas, probably an orange, some milk, for sure some cheese, an onion, a carrot, some bread and most importantly some sodas. I also noticed that I don't have ice cream or chocolate, but I am not going to buy any today.

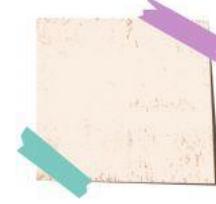

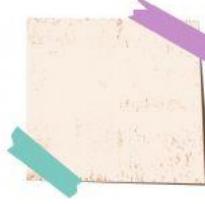

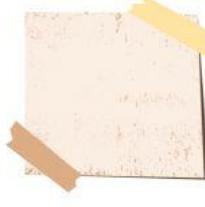

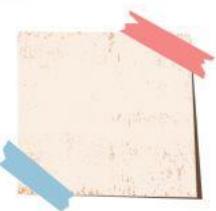

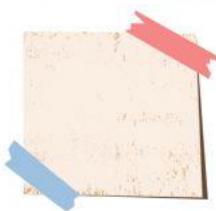

## 2. Answer the following questions:

- Where is teacher Nahomi buying her groceries? \_\_\_\_\_
- What is teacher Nahomi buying? \_\_\_\_\_
- What is she not buying? \_\_\_\_\_

## 3. Drag and drop the items and classify them into countable and uncountable

### COUNTABLE

### UNCOUNTABLE
