

Quiz 4 Class C

Instructions: Answer the questions below with the correct answer. Email your teacher the result when you are done.

1. T/F: Causal research seeks to determine the answers to *why, what, when, where, and how* questions.
2. T/F: While they cannot completely eliminate errors, good researchers strive to descriptive precision.
3. T/F: The researcher can never be certain that the causal explanation is adequate.
4. T/F: Like exploratory research, descriptive studies are based on some previous understanding of the nature of the research problem.
5. T/F: Exploratory research is intended to provide conclusive evidence from which to determine a particular course of action.
