

FOOD BLUES SONG ACTIVITY

LISTEN AND FILL IN THE BLANKS WITH TYPES OF FOOD

I was waiting in Rosie's Restaurant

When the waiter came up and said what do you want?

I looked at the menu and it looked so nice

Till he said let me give you some advice.

He said (1)..... and potatoes got too much starch

Pork chops and (2)..... are bad for your heart

There's hormones in (3)..... and beef and veal

Bowl of (4)..... is a dead man's meal.

(5)..... got preservatives there's nitrites in ham

Artificial coloring in jellies and (6).....

Stay away from donuts run away from (7).....

Pepperoni (8)..... is a sure way to die.

(9)..... rots your teeth and makes you put on weight

But artificial sweetener's got cyclamates

(10)..... got cholesterol, there's fat in (11).....

(12)..... ruins your kidneys and so does (13).....

(14)..... got mercury, red (15)..... is poison

Salt's gonna send your blood pressure risin'

(16)..... and bologna got deadly red dyes

Vegetables and (17)..... are sprayed with pesticides.

So I said what can I eat that's gonna make me last

He said a small drink of (18)..... in a sterilized glass

And then he stopped and he thought for a minute

And said never mind the water, there's carcinogenics in it.

So I got up from the table and walked out in the street

Realizin' there was nothin' I could eat

I ain't eaten for a month and I'm feeling fine

'Cause he did not mention (19)..... whiskey,

women and sweet red (20).....
