

# EASY HARE FACTS

- Hares are mammals.

- They are in the same family as rabbits.

- Hares are born with fur and their eyes open.

- They are herbivores. That means they eat grass.

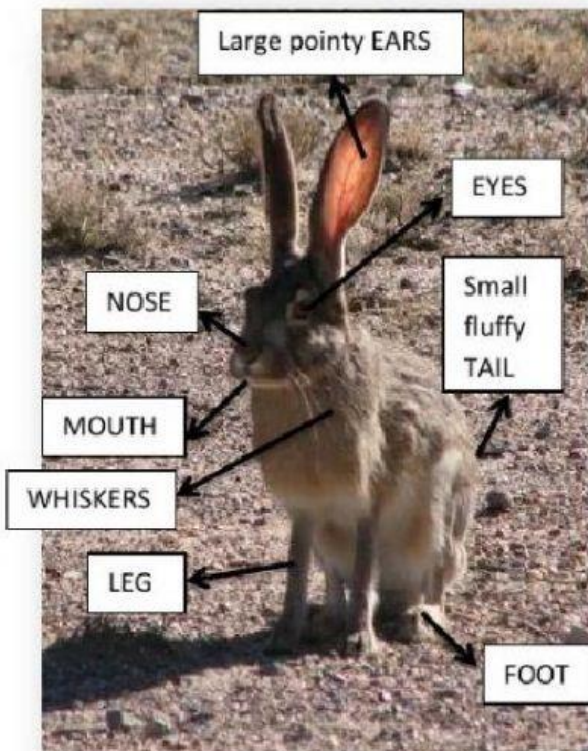

- Hares can run very fast.

- They are bigger than rabbits and have longer ears.

- Rabbits can become house pets, but hares can't be domesticated.

## Choose the correct option:

The hare is a \_\_\_\_\_ similar to a rabbit, but \_\_\_\_\_ and with longer \_\_\_\_\_. They can't be \_\_\_\_\_ as rabbits and become a \_\_\_\_\_. Hares eat \_\_\_\_\_, so they are \_\_\_\_\_. They can also \_\_\_\_\_ very fast. Baby hares are born with \_\_\_\_\_ and their eyes \_\_\_\_\_.

Hares have large \_\_\_\_\_ ears, \_\_\_\_\_, a small \_\_\_\_\_ tail and \_\_\_\_\_ legs.
