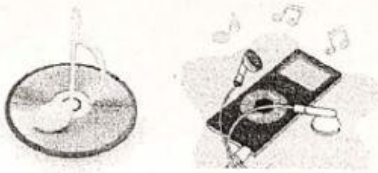
"USED TO"

Remember!

- ✓ **"Used to"** expresses the idea of something that we often did in the past but we don't do anymore; a repeated action, a habit or a way of life in the past.
- ✓ We use it to contrast past habits with present situations.

★ **Look at the pictures and write sentences comparing life in the past and in the present.**

Example:

PAST	PRESENT	FUTURE
		


In the past, people **USED TO collect** records.	Nowadays, people collect CDs and digital music.	In the future, people **will** listen to music through Wi-Fi.
