(leo la información siguiente, luego escribo el número dentro del paréntesis en la columna B para formar oraciones correctas de acuerdo con la información brindada en la columna A.

General Information

Tropical dry forest is common in Guanacaste. You can find there cenízaro trees and armadillos. Tropical rain forest is common in Upala and San Carlos, here you can find laurel trees and tapirs. Cloud forest is common in Talamanca and Monte Verde, here you can find orchids and monkeys. The conservation of the environment is important because it keeps the planet healthy, green, and beautiful. Some actions we can do to help the planet are: save water, plant trees, use public transportation, recycle, pick up the garbage, etc. Some actions that damage the environment are: water misuse, deforestation, waste water and energy, use plastic bags, etc. An ecosystem is composed of plants, animals, water, and air. There are several types of ecosystems like: Mediterranean forest – this ecosystem has cold winters and hot summers. Tropical forest – it is warm with abundant rains. Mountain Vegetation: it is an ecosystem with low temperatures.

An important day to remember we must take care of the environment is the Earth day, it is celebrated on April 22nd, on this day some kids like to make drawings on walls about nature.

A

1. Tropical dry forest is common in
2. Tropical rain forest is common in
3. Cloud forest is common in
4. The tapir's habitat is
5. Why is the conservation of the environment important?
6. Ecosystem is composed of
7. Mediterranean forest weather is
8. Tropical forest weather is
9. Mountain vegetation ecosystem weather is
10. Actions that damage the environment
11. Actions that help the planet
12. The action we have to do against deforestation is
13. The action we have to do against water misuse is
14. The action we have to do against air pollution is
15. The action we have to do against littering is
16. Kids paint nature scenes in walls in order to celebrate
17. Two examples of /eɪ/ sound words are
18. Two examples of /aɪ/ sound words are
19. Two examples of /i/ sound words are

B

- () cold (low temperatures)
- () Guanacaste
- () kite and buy
- () to plant trees
- () Talamanca and Monte Verde
- () because it keeps the planet healthy
- () tree and we
- () the tropical rainforest
- () Upala and San Carlos
- () made and cake
- () rainy
- () deforestation and water misuse
- () use bikes or public transportation
- () cold in winter and hot in summer
- () Earth day
- () plants, animals, water and air
- () save water and recycle
- () save water
- () pick up the garbage

Indicadores del aprendizaje esperado	Nivel de logro				Total points
	No responde	Aún no logrado 1	En progreso 2	Logrado 3	
Recognizes the importance and how to take care of the environment. (Reconoce la importancia y como cuidar del ambiente)		Recognizes from 1 to 4 actions. Reconoce de 1 a 5 acciones.	Recognizes from 5 to 8 actions. Reconoce de 6 a 10 acciones.	Recognizes from 1 to 4 actions. Reconoce de 11 a 12 acciones.	14 Earned points
Identifies types of forest (Identifica los tipos de bosques)		Identifies 1 type of forest. Identifica un tipo de bosque.	Identifies 2 types of forest. Identifica 2 tipos de bosque.	Identifies 3 types of forest. Identifica 3 tipos de bosque.	8 Earned points
Identifies long vowel sound /ai/, /ei/ and /i/ in different types of spellings of words.		Recognizes just one couple of words. Reconoce solo una pareja de palabras.	Recognizes two couple of words. Reconoce dos parejas de palabras.	Recognizes 3 couple of words. Reconoce 3 parejas de palabras.	3 Earned points
