My name is Frank and she is my mother Elizabeth. I always go shopping with her. There is a small store near our house, where we find many products to eat. On Mondays we always buy all dairy products: cereal, eggs, milk and cheese. On Tuesdays we buy fish, meat, chicken, rice and pasta to have for dinner. On Wednesdays we buy the legumes, nuts, and cereal and although I don't like them, my mother says that they are necessary to stay healthy. On Thursdays we buy all the vegetables, fruits, and some bottles of water. And on Fridays my mother lets me buy some ice cream and cookies. The only product we don't buy is bread, since my mother cooks bread at home.
