

Watch the video and complete the following activities.

<https://happylearning.tv/en/the-respiratory-system/>

1. Answer the questions using the words provided in the box.

oxygen      involuntary      carbon dioxide

a) What gas does human being **take in** when we breathe?

We **inhale** \_\_\_\_\_.

b) What gas does human beings **eliminate** during respiration?

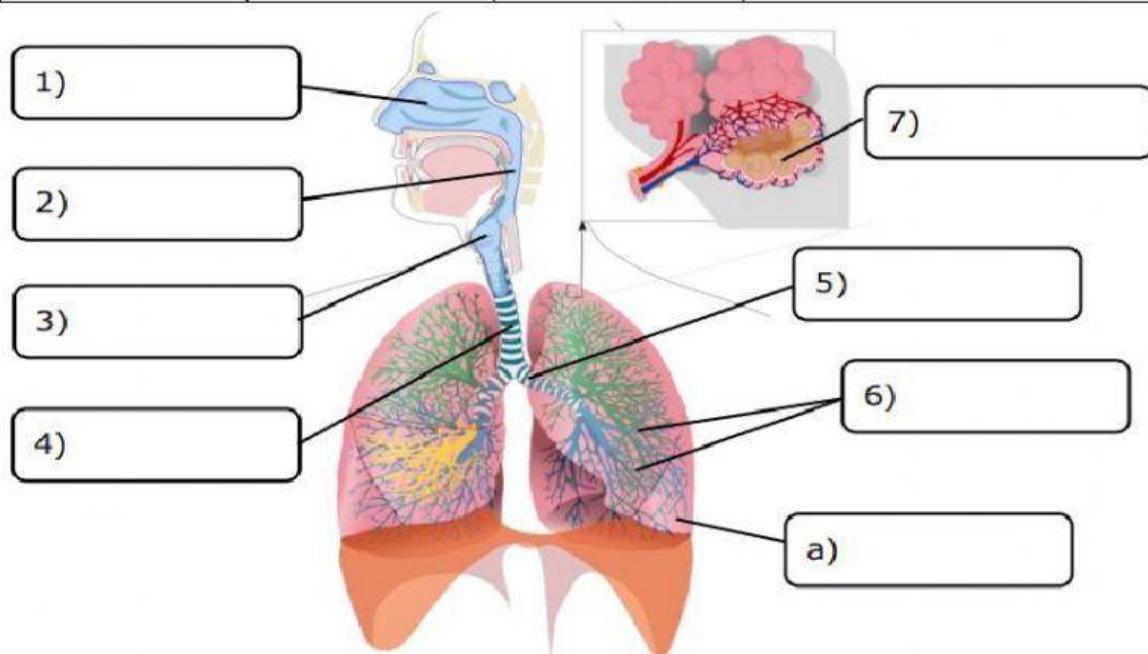

We **exhale** \_\_\_\_\_.

c) Is **respiration** a voluntary or involuntary movement?

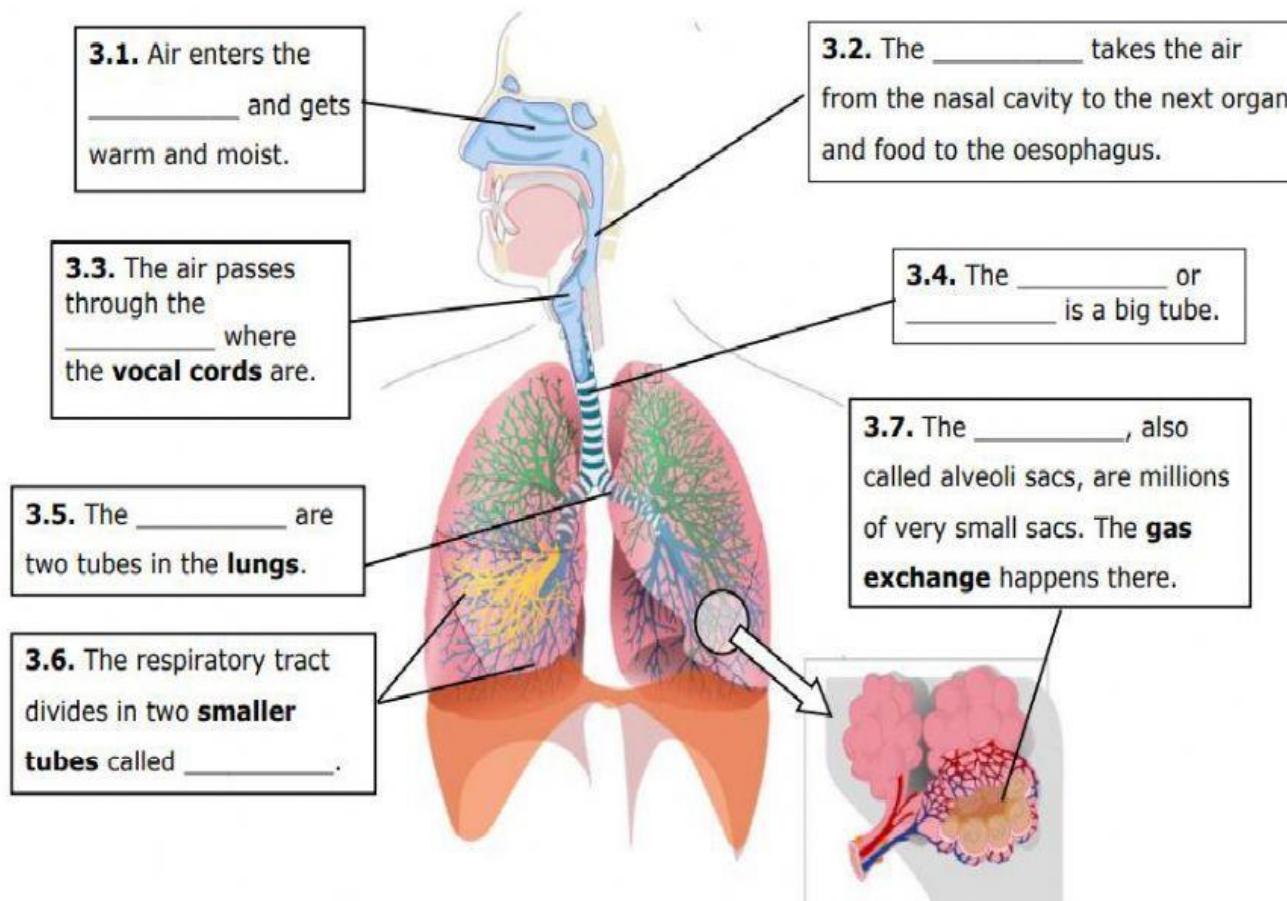

It is an \_\_\_\_\_ movement.

2. Label the diagram of the respiratory system with the structures given in the table below.

Nose	Bronchioles	Larynx	<b>Trachea</b> or windpipe
Bronchi	Pharynx	Lungs	Alveolar sacs or <b>alveoli</b>

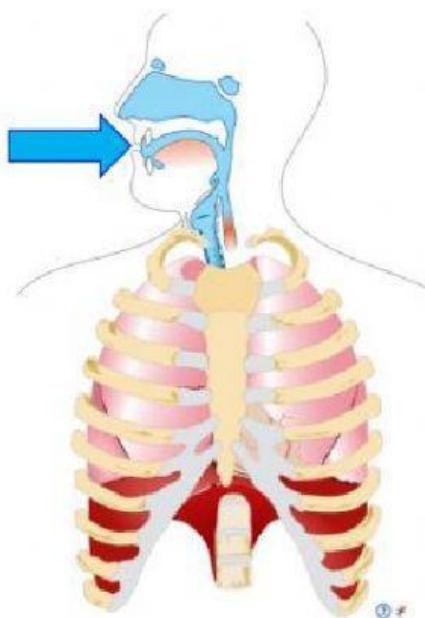

3. Complete the definitions by writing the organs of the respiratory system.

4. Choose the correct answer and copy in the box

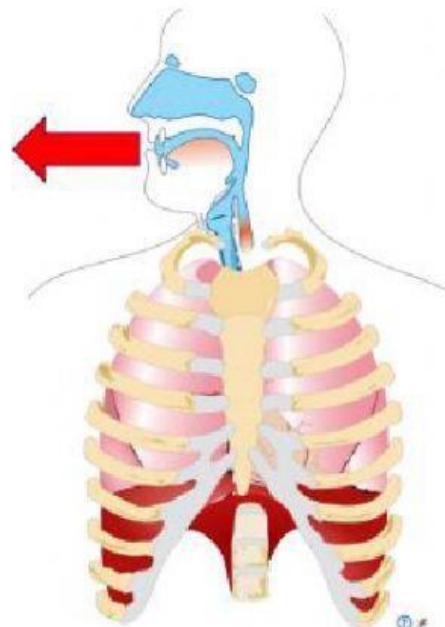

**INHALATION**

- We breathe **in/out** (1) \_\_\_\_\_ air.
- Our lungs get **smaller/bigger** (2) \_\_\_\_\_.
- We inhale **oxygen/carbon dioxide** (3) \_\_\_\_\_.
- The air passes to our **lungs/blood** (4) \_\_\_\_\_ and then our **lungs/blood** (5) \_\_\_\_\_.

## EXHALATION

- We breathe **in/out** (6) \_\_\_\_\_ air.
- Our lungs get **smaller/bigger** (7) \_\_\_\_\_.
- We exhale **oxygen/carbon dioxide** (8) \_\_\_\_\_ because our body doesn't need it.

5. State the function of alveoli which are the small air sacs at the end of the bronchioles.
