

**You are working in a local tourist office. You have to write a report for your manager comparing two very different shopping centres in your area. Say what each centre is like, compare their facilities and comment on their strengths or weaknesses as tourist attractions.**

**These questions will help you to write your report.**

What's the name of your manager? What's the name of the first shopping centre? What is it like? (modern, old-fashioned, large, etc) What kind of facilities does it provide? (Chain stores, gift shops, cafés, etc) How popular is it with tourists? Why? What's the name of the second shopping centre? What is it like? Remember it must be very different from the first one. What kind of facilities does it provide? How popular is it with tourists? Why? Is it one of the shopping centres better for tourists, or do they both attract different kinds of tourists? Do you need to make any recommendations?
