

Listen to the text and choose the (T) true or (F) false.

Hi, everybody. I am Lucy. Look at this photo! The girl on the left is my best friend, Julia. She is cute. We are deskmates at the college. We are usually together. We **get on very well**. We **have lots of things in common**. We both love mathematics, and we are both bad at physics. Julia loves **fancy dress parties** a lot. Her favourite costume is that of Snow White. My favourite costume is that of Cat Woman and we often invite our friends and hold parties at home.

Julia is a very **honest girl**. She never lies. She never leaves me alone **in times of trouble**. She always **backs me up**. And when she has a problem, she always **counts on me**. We **share our secrets**. We are both **good at** keeping secrets. I know everything about her and she knows everything about me.

She can be **stubborn** at times, so we argue but it never takes a long time. She usually **apologizes** for her behaviour. We are wonderful **buddies**.

Listen to the text and choose the (T) true or (F) false.

TRUE

FALSE

1. Julia and Lucy study at the same desk in the classroom.
2. They are good at physics but bad at mathematics.
3. Julia likes barbecue parties a lot.
4. They have a lot of things in common.
5. They never have parties at home.
6. They sometimes argue because Lucy can be stubborn at times.
7. They are good at keeping secrets, so they share their secrets.
