

# DIAMONDS

## Task 1: Click on the word you hear

Have it all  
Rip/Read our memories off the wall  
All the special things I bought  
They **seem/mean** nothing to me anymore  
But to you  
They were **everything/something** we were  
They meant more than every word  
Now I know **right/just** what you love me for

## Task 2: Drag and drop the missing word

Take all the \_\_\_\_\_ you want from me  
Hope you \_\_\_\_\_ what you want to be  
Show me how little you care  
How little you care, how little you care  
You dream of glitter and \_\_\_\_\_  
My heart's already been \_\_\_\_\_  
Show you how little I care  
How little I care, how little I care

My diamonds leave with you

## Task 3: Match the two halves

You're never gonna	( )	( ) move in dark ways
Never gonna	( )	( ) won't fool me
Baby,	( )	( ) I can breathe
My diamonds	( )	( ) hear my heart break
Material love	( )	( ) knew
When you're not here,	( )	( ) leave with you
Think I always	( )	( ) with you
My diamonds leave	( )	( ) you're so cruel

## Task 4: Write the extra word

Shake it off  
Shake the fear of feeling my lost  
Always me that pays the cost  
I should never trust you so easily  
You lied to me, lie-lied to me  
Then left me with my heart 'round your chest
