

Name: _____

Lesson: Adding Integers using a Number Line

7.NS.1b

Don't
forget...

The first addend tells you
where to start.

The second addend tells you
where to go and in which
direction.

positive = right

negative = left

Where you land is your
answer!

Directions: Use the number line below to solve the following problems.

1. $-7 + 9$

2. $-8 + (-1)$

3. $12 + (-6)$

4. $-1 + 5$

5. $20 + (-9)$

6. $-15 + 7$

7. $12 + (-18)$

8. $-1 + 13 + (-22)$
