

Biomes Vocabulary Practice

Match the definition with biomes:

Desert

Is very dry and often hot.

Forest

Biome is underwater.

Grassland

Is wet and full of plants.

Ocean

Has trees that change color in fall.

Rain Forest

Is cold, northern forest of tall trees.

Savanna

Is very cold with short plants.

Taiga

Has grass but no trees.

Tundra

Is a grassland with a few trees.

Match the biomes with the pictures:

Desert	Forest	Grassland	Ocean
Rain Forest	Savanna	Taiga	Tundra
